

2-Day Residential Workshop
**Community Participation with CAR (Commitment,
Accountability and Responsibility)**
Language in Tamil
26-27 November 2024

Course Concept:

One of the most important and key roles various NGOs and SHGs play is engaging with the community and working for sustainable development. In the changing world, the participation and partnership of the multiple members involved in the development process are experiencing a series of changes where the context of Commitment to the Cause, Accountability to a larger Society, and Responsibility for the process's success or failure is lagging. It is also found that ownership is also absent as in most of the occasions the members involved in the development process are mere spectators and fail to behave like a responsible stakeholder.

The various contributing factors in this context in particular are the paradigm changes in the socio-economic-cultural and political spheres. It is also observed the change in the mindset of the community has passed through a series of steps namely: Beneficiary - a receiver, Participant – a responsible stakeholder, and finally a contributor utilizing an accountable and responsible stakeholder. Against this backdrop, the present attempt is designed to give these NGOs and SHGs to have a first-hand understanding of the following concept of CAR against the backdrop of community participation.

Training objectives:

- To learn techniques to make the NGOs and SHGs Committed, Accountable and Responsible stakeholders to establish ownership over the programme.
- To develop the knowledge on use of modern tools - and techniques and engage other stakeholders in the process.
- To create an understanding of the changing scenario in the field and the need to bring in a change in the mindset of the stakeholders involved in the process.

On completion of the training, the participants will be capacitated to:

- The members will realize the importance of being accountable and responsible
- The approach will be more ownership oriented
- Will be capable of handling situations in a more strategic manner and specific pattern
- Will have a multidimensional outlook and mainstream the activities as planned and integrate efforts.
- On successful completion of the programme the members will understand the real situation in the field and the need to have a change in their mindset to work.
- The members will be able to adopt and practice different techniques to express and establish commitment towards the programme of development.

Who Can Participate?

All staff of NGOs / CBOs, SHG members those responsible for development work in community.

Facilitator:

Dr Umashankar Ganesan has been recognized as Master Trainer at the national level for NJJM and KRA. He has three decades of experience in the field of training and has evolved community-based development models which are still in practice. He is the key resource agency for national level training programmes of Government of India and several state governments, Language Proficiency – Context Clarity and Participatory Methods and use of various tools are found unique in his training programmes. A series of training modules are being prepared and shared by him in various languages. The core area is Community Based Development where the training context starts with context to methods to sustain. Highly interactive and innovative in sharing the idea makes everyone to feel that they are in the right track.
